

Windows 10 Mail app

Prepare the following pieces of information in advance.

These wares displayed on screen when you subscribed. You will also find those on the Access Information Sheet that was sent to you.

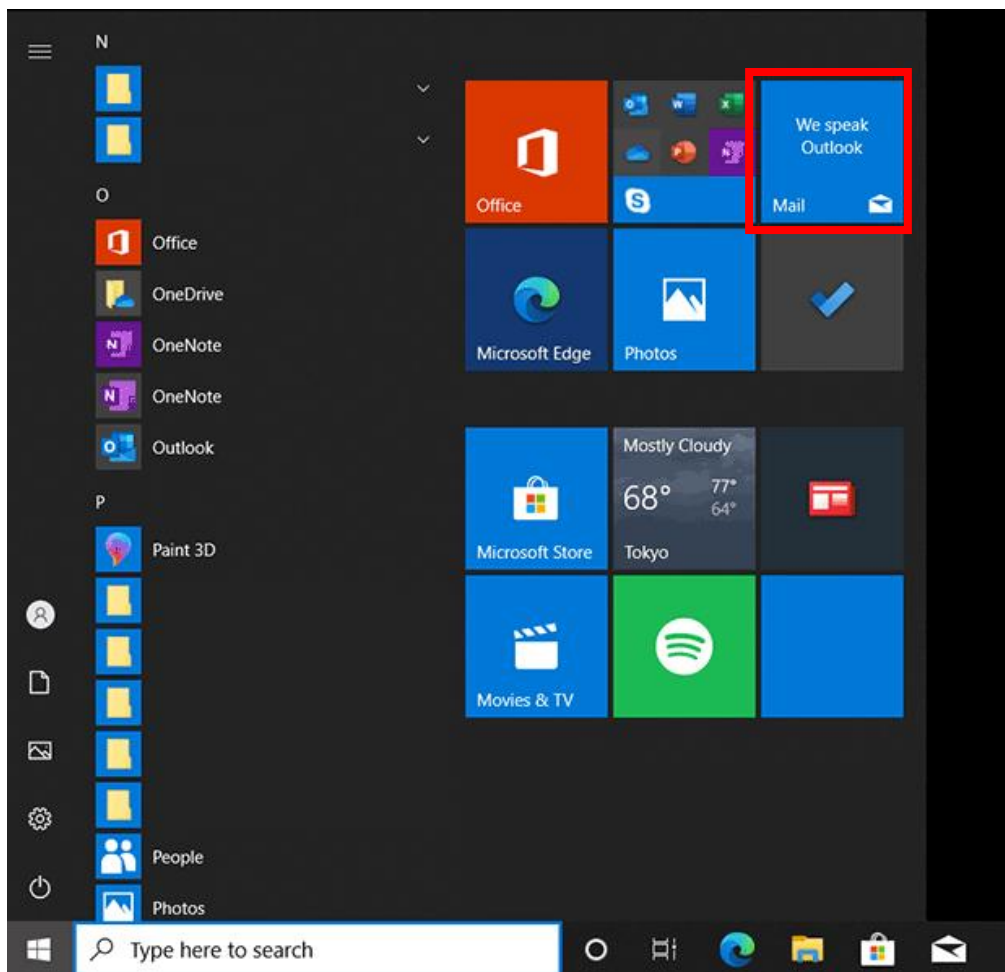

In the following description which are shown in **green**, please replace it with your own details.

Name	Value
Mail password	
Mail address	xxx99999@***.att.ne.jp

I guide you about " Ver16005" with this manual.

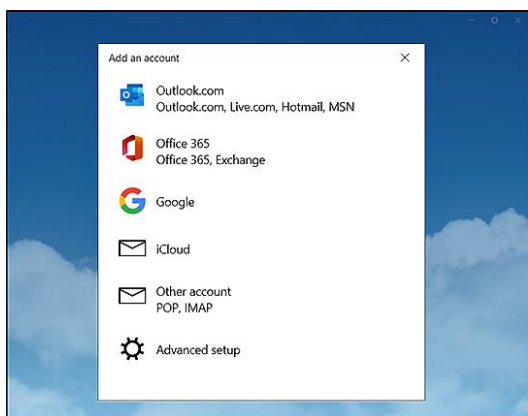

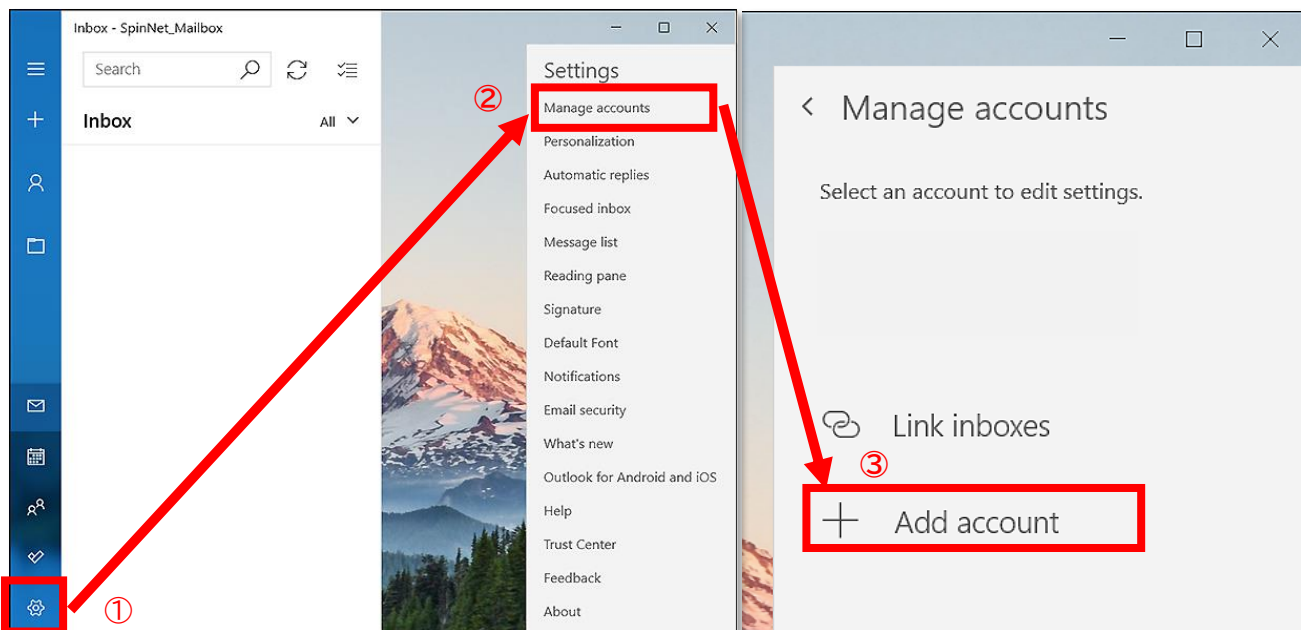

When you have you confirm existing setting, look from Step8.

Step1. Click "Mail" on the Start Menu.

Step2. Please start Setup wizard.

Click it in order of the first, the second, the third.

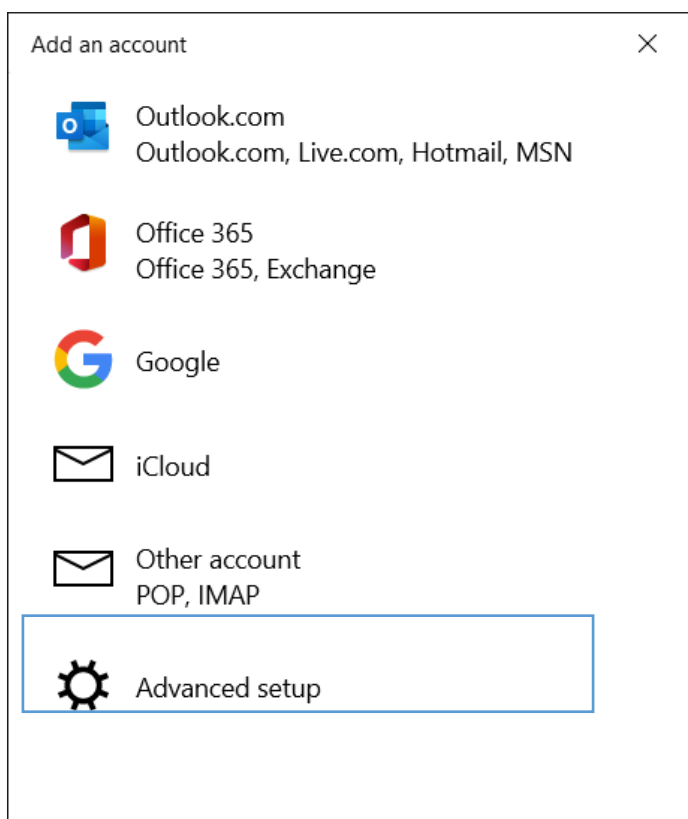

memo

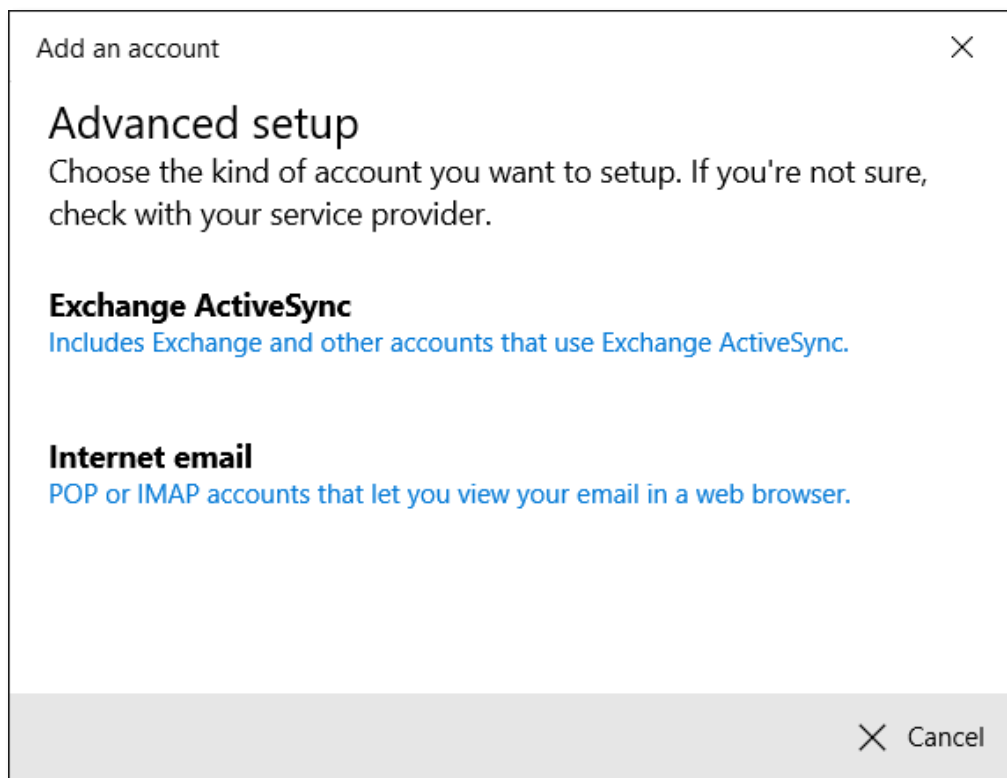

“Setup wizard window” will open when you launch it for the first time.

When a window opened, please go ahead to Step3.

Step3. Click “Advanced setup”.

Step4. Click “Internet email”.

Step5. Please click "Sign in" if you finish input.
